Sample Resume – Global Engineering Leadership

BEKELE (BECKY) WILSON

she/her • umdstudent@gmail.com • (301) 555-5555 • Small Town, MD 12345

EDUCATION

University of Maryland — **College Park, MD**
B.S., Aerospace Engineering — *GPA: 3.8* — *Expected May 2024*
Minor, Global Engineering Leadership

Leadership in Engineering, Business, and Technology, *Research Assistant* — **UAE, Qatar**
UMD Short-Term Study Abroad — *Jan. 2022*

- Investigated the development of projects and global leadership structure of Nakheel, Dubai RTA, the Louvre, Masdar City, and MSHEIRB Properties.
- Collaborated with Carnegie Mellon, Qatar students for GOALS leadership symposium to develop and present a global leadership model.

TECHNICAL PROJECT EXPERIENCE

Burkina Faso Water Project, *Team Member* — **College Park, MD**
Engineers Without Borders, UMD — *Aug. 2022 - Present*

- Collaborated with a group of 10 students and professional engineers to design a viable water extraction system for a village in Burkina Faso.
- Aided in the design of the water storage tank and distribution system used in the village system.

Supersonic Wedge Model, *Independent Research and Design* — **College Park, MD**
Special Topics in Wind Tunnel Testing, UMD — *Sept. 2021 - Present*

- Investigated, designed, and tested a wedge model for use in a Mach 2.2 wind tunnel.
- Analyzed shockwave patterns produced using a color schlieren system.

Satellite Trajectory Analysis, *Project Team Member* — **College Park, MD**
Space Navigation and Guidance, UMD — *Sept. 2021 - Dec. 2021*

- Leveraged telescope observations to plot the travel trajectory of 5 different satellites.
- Carried out multiple coordinate transformations using MATLAB algorithms to determine trajectories.

Bridge Design Team, *Project Team Co-Leader* — **College Park, MD**
Statics, UMD — *Jan. 2021 - May 2021*

- Guided a team of 8 students to design, fabricate, and test a functional prototype of a wooden bridge designed to optimize the strength-to-weight ratio on a 3-week deadline.
- Awarded 2nd place out of 15 teams for the best strength-to-weight ratio.

COMPUTER SKILLS

Engineering: CREO, Inventor, EES, MATLAB, COMSOL, SolidWorks, FEA experience
Platforms: Windows10, iOS, Linux
Languages: Arabic (intermediate), Amharic (conversational)

AFFILIATIONS

Women in Engineering, *Engineering Tutor* — *2022 - Present*
Multiracial and Biracial Student Association, *Member* — *2022 - Present*
