Sample Resume – Military Experience

Eric Tenley

Hyattsville, MD 20783 | +1.703.555.1212 | student@terpmail.umd.edu | www.linkedin.com/in/UMDstudent

EDUCATION

University of Maryland — College Park, MD
Bachelor of Science: Mechanical Engineering, GPA: 3.05 — Expected Graduation: May 2024

Munich University of Applied Sciences — Munich, Germany
Study Abroad Semester: Automotive Engineering, GPA: 3.2 — Jan - July 2022
International Engineering Certificate — July 2022

Northern Virginia Community College — Alexandria, VA
Associates of Science: Engineering Sciences, GPA: 3.83 — Aug 2017 - May 2018

TECHNICAL EXPERIENCE

Colliers International — Washington, DC
Assistant Project Manager — May 2021 - Aug 2022

- Examined building schematics and generated technical documentation of existing components already in use
- Composed testing procedures for use on commercial HVAC systems
- Conducted building envelope testing and verified results were according to LEED standards

University of Maryland, Mechatronics Project — College Park, MD
Individual Project — Aug - Dec 2022

- Conceptualized and developed a robotics system which fired a projectile based on user input
- Successfully wrote and implemented Arduino and Processing code to communicate with robotics system

Munich MotorSport — Munich, Germany
Aerodynamics Design Team Member — Jan - Aug 2022

- Inspected the aerodynamics of vehicle components using ANSYS
- Simulated proposed improvements of new design using Finite Element Analysis (FEA)

Munich University of Applied Sciences, Platooning Aerodynamics Team — Munich, Germany
Team Member — Feb - July 2022

- Analyzed the pressure experienced between vehicles at varying lengths using ANSYS
- Demonstrated the potential fuel savings vehicles experience while platooning

Airgility — College Park, MD
CAD and Assembly Team Member — May - Sep 2021

- Fabricated autonomous robotic drone systems used to deliver medical devices and supplies
- Collaborated with 3 others in designing the mounting brackets for propeller motors using SolidWorks
- Assembled the 3D CAD models and finalized the designs prior to the 3D printing process

MILITARY EXPERIENCE

United States Air Force — Sumter, SC
Journeyman Meteorologist — Jan 2013 - Jan 2017

- Analyzed raw weather data from surface observations, satellites, radar, computer models and climatological information to develop an informed weather forecast in the scope of the direct mission impact
- Verbally communicated weather data to officers in charge and fellow meteorologists to enable strategic decision making to ensure equipment and personnel safety
- Provided forecasts ensuring completion of over 2000 flight missions with a 98% error-free success rate

SKILLS

Technical: Creo, AutoCAD, SolidWorks, ANSYS, MATLAB, C++, Microsoft Office, Arduino, Processing

Language: German (Intermediate, Goethe Institute: B2)
