Miles Clemente

Vancouver, BC • 778.555.1930 • 82maci2010@ubc.ca

Highlights of Qualifications

- Certified to teach in British Columbia; Teachable: Secondary Math and Physics.
- Strong subject knowledge in secondary mathematics (Grades 8–12), with teaching experience in Foundations, Pre-Calculus, and Physics
- Skilled in designing inclusive, competency-based lessons grounded in Universal Design for Learning (UDL) and BC curriculum
- Experienced supporting students with diverse learning needs through scaffolding, differentiated instruction, and collaboration with EAs
- Multilingual: Fluent in English and French; proficient in Japanese.
- Leadership experience in extracurriculars, including soccer coaching and STEM outreach, promoting student engagement beyond the classroom

Education

Bachelor of Education, Secondary Math **Sep 2024 – July 2025**
University of British Columbia, Vancouver, BC

Bachelor of Science in Mathematical Sciences **September 2019 – April 2023**
University of British Columbia, Kelowna, BC

Teaching Experience

Student Teacher (Practicum) **March – June 2025**
Pinetree Secondary School, Coquitlam, BC

- Taught Grade 10 Foundations of Mathematics, Grade 11 Pre-Calculus, and Grade 10 Physics to classes of 25-30 students using inclusive, inquiry-based teaching practices
- Designed and implemented differentiated lesson plans grounded in Universal Design for Learning (UDL), resulting in increased engagement and improved quiz performance among students with IEPs and ELL backgrounds
- Developed and adapted assignments aligned with BC's Curriculum and Core Competencies, supporting students in demonstrating understanding through multiple modalities (e.g., projects, presentations, written work)
- Led a cross-curricular STEM club, Sports Analytics Club, engaging over 20 students in applying statistical reasoning into real-world scenarios
- Applied formative assessment strategies (e.g., exit slips, visible thinking routines) and scaffolding to track student progress and adjust instruction.
- Collaborated closely with mentor teacher and EAs to modify instruction and assessment, providing equitable access for students requiring individualized support

Educational Assistant **May 2023 – June 2024**
Burnaby Central Secondary, Burnaby, BC

- Provided one-on-one and small-group support in Grade 8 math, reinforcing concepts such as integers, fractions, and linear relationships for student with diverse learning needs
- Collaborated with the classroom teacher to adapt instruction and monitor progress, supporting students with IEPs and varied levels of math confidence
- Use visual scaffolds, manipulatives, and guided questioning to increase engagement and support conceptual understanding during lessons and independent work

Additional Experience

Soccer Coach (U15 Boys)
Vancouver Youth Soccer Association **Apr 2020 - Aug 2023**

- Coached youth aged 13-15, fostering teamwork, confidence, and skill development through inclusive, level-appropriate practices
- Built positive relationships with players and families, creating a supportive and respectful team environment

STEM Club Manager (UBCO STEM Outreach Program) **Sep 2021 - Apr 2023**

- Led weekly hands-on STEM workshops for middle school students, aligning activities with BC curriculum goals
- Managed volunteers and partnered with local schools to promote access to STEM learning for diverse youth

Math Teacher (Gr. 8-12)

Job description

Whytecliff Agile Learning Centres (walc.ca) in Burnaby BC is seeking a full-time experienced Math Teacher (Grades 8-12) to join our team. This is a unique opportunity to be part of a fun, dynamic, and innovative community and to make a real difference in kids' lives!

A little about us:

Whytecliff is a BC Ministry of Education accredited independent high school for grades 8-12. Our Burnaby campus is comfortably small (and feels less like a school and more like an oversized home), with a tight-knit team of 8 staff serving up to 32 students. Here, in a calm, caring, and collaborative setting, we serve a variety of truly great kids who arrive with an array of diverse learning needs and social-emotional challenges (such as anxiety, depression, ASD, dyslexia, and ADHD, among others).

Whytecliff is unique. More than just a school, we stand apart as being one of the few programs in North America to seamlessly integrate education and positive youth development work (with a special emphasis on promoting positive mental health & wellness, social connectedness, and personal development). We use a strengths-based, person-centered approach that is transformative for many of the youth attending our programs. Not only do our unique programs work wonders, kids love being here too: "Thank you for the best year of my life! I can't wait to come back!"

Each year we evolve new exciting opportunities as we seek to build upon the gifts, strengths, talents, and interests of the kids in the program. This year we began offering a hiking club in partnership with Outward Bound, and we're incorporating a special emphasis on cross-curricular and project-based learning!

Here's a more in-depth look at the work we do: https://www.ourkids.net/private-school-reviews/whytecliff-agile-learning-centres-langley/651

A little about who we're looking for:

The ideal candidates will have experience teaching gr 8-12 Math in BC, a Bachelor of Education or an undergraduate degree in the relevant discipline and valid certification (or eligibility) with the BC Teacher Regulation Branch. Equally important, we look for staff that are kind, creative, caring, good active listeners, love working with children, and have an infectious love for their subject(s)... someone who has a positive, engaging presence and uplifting energy with children, and a desire to make a meaningful difference in their lives.

Our educational approach is 'cross-curricular' and highly project-based—meaning that teachers often work hand-in-hand with kids and fellow colleagues to help create fun, engaging projects and lessons that can tap into kids' passions and interests and tie together multiple subjects. Bonus points if you have an interest and ability to teach or co-teach other subjects--either in addition to or in conjunction with Math!!! (i.e. Arts, STEM, P.E., Career/Life, Tech, Foods, etc.)

The position is also 'transdisciplinary'—meaning that teachers often work with youth in other capacities outside traditional classroom duties and activities (such as mentoring, facilitating creative/collaborative projects to foster 21st century skills, leading field trips and connecting with community resources, and keeping in greater touch with kids' families).

A driver's license is preferred.

Pay is commensurate with experience

August 19 start date

Benefits:
• Casual dress
• Dental care
• Extended health care
• Paid time off
• RRSP match

Schedule:
• 8 hour shift
• Day shift
• Monday to Friday
